Trusted by general contractors and building owners who demand on-time, on-budget.

The reason general contractors and building owners hire the finishing contractors of Painters' District Council 5 is simple. Their apprenticeship, training, safety record and worker productivity are second to none.

Which is why they've installed the glass, laid the floor covering and painted the surfaces of thousands of new and existing buildings in the Northwest. You'll know Painters' District Council 5 as the Mt. Hood Glass Association,

Signatory Floor Covering Contractors and Signatory Painting Contractors. They are the professionals who demanding general contractors and building owners trust to finish the job.
